

ALPS Relocating Operations, Sales, Engineering and Technical Support

Milwaukee, WI June 2016

**ALPS Operations
TASI Harrison Facility**
10100 Progress Way
Harrison, OH 45030

**ALPS Sales and Technical Support
TASI Oak Creek Facility**
2440 W Corporate Preserve Drive, Unit 600
Oak Creek, WI 53154

To better position Air Logic Power Systems (ALPS) for growth under our TASI TEST North America Group, ALPS manufacturing operations will be moved to our TASI location in Harrison, Ohio on July 1, 2016. Followed by a move of our Sales, Engineering and Technical Service departments to our new facility in Oak Creek, Wisconsin on July 29, 2016.

Our new facilities deliver to ALPS and TASI TEST over 110,000 sq ft of space for Operations, R&D, Sales, Test Labs and After Market support.

Please note that ALPS normal parts shipments will be closed for the inventory transfer starting Friday, June 24. Shipments will restart from the TASI Harrison, Ohio facility on July 8, 2016. During this period please refer to the ALPS Service Hotline listed below if an emergency parts shipment is required.

All RMA's, Repairs, Warranty items, and bottle samples for FAT's should now be addressed to our Harrison, Ohio facility unless otherwise instructed. Starting July 8th all Machines and Parts will ship from our new Ohio production facility. Tooling has already been transferred to Ohio so no interruption in the production schedule is expected.

We appreciate your business and are excited to start a new chapter for continued growth of our combined operations.

ALPS, 1745 S. 38th Street, Suite 100, Milwaukee, WI, USA 53215
